

Legal Information on the SALUNO Token (SLN)

SALUNO ECOSYSTEM PTY LTD

Last updated: March 2026

This disclaimer defines the legal nature, purpose, and terms of use of the SALUNO (SLN) token within the SALUNO ecosystem.

The SLN token is created and used exclusively as a utility token and is intended to provide access to the Platform's functionality, its services, and internal mechanisms.

By using the SLN token, the User confirms understanding of its purpose and agrees to the terms of this disclaimer.

1. Legal Nature of the Token

The SLN token is a digital asset with a utility function, intended solely for use within the SALUNO ecosystem.

The token is not intended to be used as:

- a financial product
- an investment instrument
- a means of raising capital
- a general-purpose payment instrument

The legal qualification of the token is determined in accordance with applicable law and may vary depending on the User's jurisdiction.

2. Absence of Securities Characteristics

The SLN token does not possess the characteristics of a security and does not grant the User:

- ownership rights or equity interest in SALUNO ECOSYSTEM PTY LTD
- rights to participate in company management
- rights to receive profit or income
- claims to the company's assets or liabilities

3. Utility Purpose

The SLN token is used exclusively within the Platform and its functionality, including:

- access to services and tools of the ecosystem
- participation in internal Platform mechanics
- obtaining functional advantages and capabilities
- interaction with SALUNO products

The token has no independent value outside the ecosystem, except in cases beyond SALUNO's control.

4. No Investment Nature

The SLN token is used within the SALUNO ecosystem and is intended for functional purposes of the Platform.

SALUNO does not set any expectations regarding profitability, value growth, or other financial results associated with the use of the token.

Use of the token does not imply participation in investment activities or receipt of guaranteed income.

All decisions related to the use of the token are made independently by the User, based on their own assessment and understanding of the Platform's functionality.

5. Limitation of Use Outside the Ecosystem

The SLN token is designed for use within the SALUNO Platform.

SALUNO does not control and is not responsible for:

- circulation of the token on third-party platforms
- its listing on external services
- use of the token by third parties outside the ecosystem

6. No Obligations by SALUNO

SALUNO does not assume any obligations:

- to repurchase the token
- to provide liquidity
- to maintain or increase the token's value
- to ensure its circulation on external markets

7. Regulatory Aspects

SALUNO operates in accordance with applicable laws of Australia.

The SLN token is not intended to be classified as a financial product under applicable regulations, including those governing securities and investment instruments.

SALUNO does not engage in activities requiring licensing as a financial services provider in relation to the SLN token.

8. Risks

Use of the token involves risks, including but not limited to:

- technological risks
- changes in market conditions
- changes in legislation
- limitations in access to functionality

The User independently evaluates all risks associated with the use of the token.

9. No Advice

Information about the SLN token does not constitute:

- investment advice
- financial or legal advice
- an offer or invitation to acquire an asset

10. User Responsibility

The User independently decides to interact with the SLN token and is responsible for:

- compliance with applicable laws of their jurisdiction

- tax consequences
- risk assessment

11. Amendment of the Disclaimer

SALUNO reserves the right to amend this disclaimer.

Such amendments shall take effect no earlier than 14 (fourteen) calendar days from the date the User is notified by email.

12. Contact Information

For questions related to the SLN token, its use, or legal status, the User may contact:+
